### **Experience Summary**

George J. Donovan is the owner/partner of a private practice offering personal professional services to public and private clients and has over 44 years of service in the architectural field. Historic preservation is one of his keen interests. George has served as Director of the Heritage Conservancy, Vice Chairman of the Doylestown Borough Historic and Architectural Review Board and a Member of the New Hope Borough Historic and Architectural Review Board.

George also specializes in land planning services from site selection and analysis through master plans and impact studies for all types of commercial/residential developments, including representation at public hearings before municipal agencies. He has designed countless commercial and municipal projects as well as single family housing, townhouses, apartment complexes, senior housing communities and planned residential developments containing several housing types and related commercial facilities.
