Experience Summary

H. Joseph Phillips is the owner/partner of a private practice offering personal professional services to public and private clients and has over twenty years of service and experience in the architectural field. Joe leads our firm's efforts in the design of municipal and government facilities and has over twenty years experience in this specialty. His role as partner requires the daily management of staff and the monitoring of preparation of documents for all phases of our projects ranging in scope from small additions to large municipal and office complexes. In addition, Joe adds a contractor's insight to the process having worked with his father in a family owned general construction business prior to joining the firm.
