Experience

Mr. Charles has over 15 years experience as an architect with a strong background in the design and development of custom homes. His job responsibilities include meeting with clients, developing project program criteria, creating and presenting schematic design solutions to the client and overseeing the construction document process.

1991 to
Present

George J. Donovan A.I.A. and Associates, 3160 Bedminster Road, P.O. Box 160, Doylestown, PA. Job responsibilities include project management and coordination from program development and schematic design through construction documentation and construction administration on residential projects ranging in size and scope from small renovation work to full service custom homes. Experience also with small scale office, retail and educational structures.

1990 to
1991

Central Bucks Family YMCA, Doylestown, PA. Youth director working with 12 to 15 yr. olds. Responsibilities included planning and carrying out leadership activities, swimming instructions and youth evaluations.
